

# OA LodgeMaster Desktop 1.1.3

Released May 15, 2008

Dear OA LodgeMaster Users,

The OA LodgeMaster team is happy to announce the immediate release of Version 1.1.3! This update fixes two bugs discovered in the last version:

- Error message when trying to add and deleting new members through membership manager.
- A delay in database synchronization for a small number of users that caused the process to take more than the normal 30 seconds to 1 minute.

There are no questions and answers attached as the release only fixes the aforementioned issues. We'll be continuing to work on the small number of bugs that remain open next, and will hopefully have another small release out very soon with those fixes. We'll also let you know in that release announcement what we'll be working on for the next major release.

Go to <https://lodgemaster.oa-bsa.org/softwareupdate/> to download the update. You don't need to reinstall anything, the update is just over 1 megabyte in size and runs in just a couple seconds.

As always, if you have questions or problems, please submit a request online (<http://support.oalodgemaster.org>). Please don't email or call any of the team members directly - we use the support center to evenly divvy up work and make sure everyone gets answers as quick as possible.

Yours in Brotherhood,

The OA LodgeMaster Team  
Matt, Mike (C.), Mike (G.), Mike (P.), and Rob
