

Lodge Support Email Update

Included in the footer of each email sent from LodgeMaster is a lodge support email. This is a new field separate from the two lodge administrator emails. Commonly this is an address like support@lodgename.org and goes to key leadership. Please complete the form below with an email address to be used. Once we receive your lodge support email, we will update your database to reflect the new email.

*NOTE - This form must be submitted by your LodgeMaster lodge administrator(s) on file with the LodgeMaster Team.
