OA LodgeMaster Lodge Client 4.4.1

Released 22 Apr 2020

OA LodgeMaster Users,

The OA LodgeMaster Team is excited to announce the immediate release of version 4.4.1! We have fixed 10 bugs from the 4.4.0 release. Notable bug fixes include improvements to split transactions in the Finance Module, a couple bugs in the member editor UI, Unit of Excellence report improvements, and a couple updates to the offline client.

Coming Soon – BSA ScoutNET sync tools! We have added the ability to sync unit data directly from ScoutNET to your LodgeMaster lodge database! These new tools will be released next week after a webinar on Wednesday, April 29th. Due to the potential impact on your database we will not be enabling these tools until after our webinar. We felt it was important to provide training and have documentation available before turning these tools on. Webinar details can be found HERE.

These are just a few of the highlights from our release. A full list of improvements can be found on the LodgeMaster Documentation site with the link below. Go to https://lodgemaster.oa-bsa.org to access the online Lodge Client, view documentation, submit support and feature requests.

Yours in Brotherhood,

The OA LodgeMaster Team
