

OA LodgeMaster Lodge Client 4.4.2

Released 20 May 2020

OA LodgeMaster Users,

The OA LodgeMaster Team is excited to announce the immediate release of version 4.4.2! We have fixed 13 bugs from the 4.4.1 release. This version also includes a new updated offline version and completes the third and final phase of our system maintenance.

In version 4.4.1 we released our brand new BSA Unit Data Sync tool. In this release we have fixed several bugs in the new sync tool that will make using the tool a better experience. Users should no longer see unknown errors when running the sync and should see all units in their council as part of the export. We have also fixed an issue that prevented syncing clubs.

A full list of bug fixes can be found on the LodgeMaster Documentation site. Go to <https://lodgemaster.oa-bsa.org> to access the online Lodge Client, view documentation, submit support and feature requests.

Yours in Brotherhood,

The OA LodgeMaster Team
